6. Social Media Plug-ins

We use social plug-ins of social media networks like Facebook, LinkedIn, Twitter and Instagram on our website on the basis of art. 6 par. 1 p. 1 lit. f DSGVO in order to make our company better known. The underlying advertising purpose is to be regarded as a legitimate interest within the meaning of the DSGVO. Responsibility for data protection-compliant operation must be guaranteed by the respective provider. The integration of these plug-ins by us takes place in the way of the so-called two-click method around visitors of our web page in the best possible way to protect.

a) Facebook

Our website uses social media plugins from Facebook to personalize their use. For this we use the "LIKE" or "SHARE"-button. This is an offer from Facebook.

When you access a page of our website that contains such a plugin, your browser establishes a direct connection to the Facebook servers. The content of the plugin is transmitted directly from Facebook to your browser and integrated into the website.

By integrating the plugins, Facebook receives the information that your browser has called up the corresponding page of our website, even if you do not have a Facebook account or are not currently logged on to Facebook. This information (including your IP address) is transmitted directly from your browser to a Facebook server in the USA and stored there.

If you are logged in to Facebook, Facebook can directly associate your visit to our website with your Facebook account. If you interact with the plugins, for example by pressing the "LIKE" or

"SHARE" button, the corresponding information is also transmitted directly to a Facebook server and stored there. The information is also published on Facebook and displayed to your Facebook friends.

Facebook may use this information for the purposes of advertising, market research and demand-oriented design of Facebook pages. To this end, Facebook creates usage, interest and relationship profiles, e.g. to evaluate your use of our website with regard to the advertisements displayed to you on Facebook, to inform other Facebook users about your activities on our website and to provide other services associated with the use of Facebook.

If you do not want Facebook to associate the information collected through our website with your Facebook account, you must log out of Facebook before visiting our website.

The purpose and scope of the data collection and the further processing and use of the data by Facebook as well as your rights and setting options for the protection of your privacy can be found in the data protection information (<https://www.facebook.com/about/privacy/>) of Facebook.

b) Twitter

Our website contains plugins of the short message network of Twitter Inc. (Twitter). You can recognize the Twitter plugins (tweet button) by the Twitter logo on our site. An overview of tweet buttons can be found here (<https://about.twitter.com/resources/buttons>).

When you access a page of our website that contains such a plugin, a direct connection is established between your browser and the Twitter server. Twitter receives the information that you have visited our site with your IP address. If you click the Twitter "tweet button" while logged into your Twitter account, you can link the contents of our pages on your Twitter profile. This allows Twitter to associate the visit of our pages with your user account. We would like to point out that, as the provider of the page, we are not aware of the content of the data transmitted or how it is used by Twitter.

If you do not want Twitter to associate your visit to our pages, please log out of your Twitter account.

For more information, please see the Twitter Privacy Policy (<https://twitter.com/privacy>).
